*Cleaning our Earth One Drop at a Time*

# B.L.O.C. Plus™

Biological Liquid Odor Control Plus

## Key Benefits

- Controls odors including ammonia
- Reduces animal stress
- Less neighbor complaints
- Repels insects and other pests

## Applications

- Air filters
- Compost
- Kennels
- Flour mills
- Dairy barns
- Waste lagoons
- Anywhere pests and odors may be a problem
- Manure and litter
- Processing plants
- Poultry & Swine houses
- Livestock holding areas
- Manufacturing facilities

## Features

- BLOC Plus™ is an all natural botanical pesticide containing essential oils, surfactants, naturally occurring odor-reducing microbes and growth enhancers that repels pests and is harmless to farm animals, pets, and people.
- Reduces odors associated with waste by-products by enhancing the breakdown of these odors naturally. Less odors means less pests attracted to the waste including flies, mites, rodents and even scavengers.
- Acts by blocking a key neurotransmitter, Octopamine, that is found only in insects. At high doses the insect is paralyzed, preventing it from flying or breathing.
- Can be reapplied as needed, even in areas where animals are currently being housed.
- Easy to use, just dilute and spray.

## Contact Us

Learn more at [www.GreenEarthNaturally.com](http://www.GreenEarthNaturally.com) or call 540.362.5636

BLOC Plus™ is exempt from USEPA registration requirements under Section 25(b) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) when used according to manufacturer instructions found on the product label.
