

EarthCleanz

Cleaning our Earth One Drop at a Time

BioDigest™

Key Benefits

- Reduces odors, ammonia, sulfides, solids, organics and BOD
- Degrades waste into compost

Applications

- Composting facilities
- Meat processing plants
- Beef cattle and dairy barns
- Kennels and animal shelters
- Waste water treatment plants
- Landfills
- Swine barns
- Grease traps
- Poultry houses

Features

- BioDigest™ is a dry, all natural biological product for composting, odor control, and reduction of solids in lagoons and waste containment areas.
- Blend of surfactants coupled with natural absorbents to capture odors until they are degraded by the enzymes and microbes.
- Breaks down fats, oils, greases, cellulose, fibrous materials (animal protein, nails, hooves, hair, feathers, beaks, and vegetation), and other organic contaminants.
- All ingredients in BioDigest™ are generally regarded as safe (GRAS).
- Easy to use, simply mix with water and apply.
